- Hi Team,
- Varinia loved sampling the delicious Mediterranean favorites at the Rancho restaurant, posting several IG stories highlighting the food alongside an impactful Instagram reel encouraging her followers to check out the restaurant for themselves.
- When asked how she enjoyed the experience, she said *"It went well and the food was delicious. They were all friendly."* She let us know the only thing she would change would be that she would have liked to pick her own food for sampling. For our final two influencer visits (details coming shortly), we recommend allowing the influencers to select their own meals, then if there are any additional menu items you would like for them to sample, you can add them onto their order as a surprise and delight.
- Please find a link to her IG reel below and her stories attached. 😊
